Mr. H. Kirk Lucius, Chief
Site Investigation and Support Branch
Waste Management Division
U.S. Environmental Protection Agency, Region IV
345 Courtland Street
Atlanta, Georgia 30365

Dear Mr. Lucius:

We have reviewed the comments provided by your letter of December 20, 1988 regarding the Site Investigation Information Request for Marine Corps Air Station, Cherry Point. As discussed during a telephone conversation on February 6, 1989 between Mr. Victor Weeks of the Federal Facilities staff and Ms. Sheila Ashton of our staff, the following information is provided in response to your request. The numbers below correspond to the same numbers in your letter.

1. Narrative summaries are provided as enclosure (1). The most current RCRA information pertaining to Cherry Point may be found in the Revised Part B Hazardous Waste Permit Application dated 26 February 1988 that was submitted to EPA Region IV for review.

2. The Initial Assessment Study for MCAS Cherry Point contains all available documented waste quantity information for each potential CERCLA site. A copy of this study was sent to your office for your records and should be a part of the docket file for this activity. If you desire another copy, please contact Ms. Nina Johnson at (804) 444-8045 and one will be sent.

NREA

3. Recent USGS topographic maps indicating three and four mile radii around each potential CERCLA site boundary will be provided directly to you by MCAS Cherry Point no later than March 15, 1989.

NREA

4. Nearby public water supply system plans indicating distribution lines will be requested by MCAS Cherry Point from the Craven County Health Department by February 15, 1989. The information from the Health Department will be forwarded to you by MCAS Cherry Point by March 15, 1989.

NREA

5. Map indicating location of existing drinking supply wells on MCAS Cherry Point with available well logs and user documentation will be provided directly to you by MCAS Cherry Point no later than March 15, 1989.

6. All existing sampling and analysis data for each potential CERCLA site was provided to your office on December 5, 1988 in the form of the Remedial Investigation Interim Report dated October 1988.
